

Deterministic note and citation association fixture

Repository Fixture Authors

Abstract

A numeric claim carries footnote marker ¹.

A symbol claim carries footnote marker ^{*}.

Arabic-Indic U+0661 note marker appears at right. ۱

۱ Arabic-Indic U+0661 note body marker appears at left.

1. Numeric footnote body contains nested marker ⁶.

6. Nested footnote body.

* Symbol footnote body.

Scholarly citations and in-float markers

Prior evidence [1-3, 5] supports the range and group claim.

Example et al. (2024) confirms the author-year claim.

A separate claim has note reference 3.

Figure 1. Caption citation [2] remains associated.

Table 1. A note marker inside a table cell remains associated.

Measure	Evidence
Cell note	Note ⁴
Control	None

4. Table cell note body.

Genuinely ambiguous duplicate-label note

Left context preserves a column.

Right context preserves a column.

Left evidence remains independent.

Right evidence remains independent.

A genuinely ambiguous claim has note reference 7.

Endnotes

3. Repository-owned endnote body begins here.

Additional endnote detail preserves complete source evidence.

The note remains local and deterministic for this fixture.
